

CommerceFlow AI™ — Knowledge Base Documentation

UrbanCart AI Shopping Assistant | Store Policy & Product Data Reference

1. Store Information

Field	Value
Store Name	UrbanCart
Shipping Policy	Standard shipping: 3-5 business days. Express shipping: 1-2 business days.
Return Policy	Returns accepted within 30 days if unused and in original packaging.
Payment Methods	Visa, Mastercard, PayPal, Cash on Delivery
Support Email	support@urbancart.com
Support Phone	+92-300-1234567

2. Product Catalog (sample)

Product	Category	Brand	Price	Stock
Acer Nitro V15	Laptop	Acer	\$799	15
HP Pavilion 15	Laptop	HP	\$699	12
Sony WH-CH720N	Headphones	Sony	\$129	25
Apple AirPods Pro	Earbuds	Apple	\$249	8

3. Order Records (mock Shopify data, used for testing)

Order ID	Customer	Email	Status	Return Eligible
ORD1001	Ali Khan	ali@example.com	Processing	No
ORD1002	Sara Ahmed	sara@example.com	Shipped	Yes
ORD1003	Bilal	bilal@example.com	Delivered	Yes

4. Knowledge Retrieval Logic

For general questions (intent = "faq"), the assistant grounds its Gemini-generated reply in the store_data.json fields above (shipping policy, return policy, payment methods, contact info) rather than letting the model invent policy details. This ensures FAQ answers stay accurate and consistent with

UrbanCart's actual policies.

5. CRM Fields Logged Per Conversation

- Customer Name
- Email Address
- Conversation Summary
- Order Number
- Support Category (Order Tracking / Return Request / Recommendation / FAQ / Human Handoff)
- AI Resolution Status (Resolved / Escalated)
- Escalation Status (Yes / No)
